Double cap Right hand 4 wheel Drive pick up, GVW not less than 2700 kg, pay load not less than 900 kg, 4-stroke, water cooled diesel engine, Displacement of the engine shall not be less than 2000 CC., Develping maximum rated power out put less than 130 HP and maximum torqueshould not be less than 315 N-m at governed RPM, high ground clearance preferred, minimum 200 mm., vehicle mass current emission standard.

RHD seating capacity not less than 26 person, Suitable for driving in Nepal at an altitude up to 2100 m., four stroke, turbo charged diesel engine, piston displacement min. 2500 CC, min. 4 cylinder, engine output min. 60 HP and engin torque min. 210 N-m at governed RPM, Min. 5 speed all synchromesh and one reverse gear Nepal vehicle mass emission current standard.

High Roof Ambulance suitable for hilly roughroad driving in Nepal. GVW not less than 2500kg, pay load not less than 900 kg and shall have seating capacity at least 6 passengers including driver and having at least 6 passengers including driver and having at least one patients foldable stretcher. 4-stroke, water cooled diesel engine, displacement of the engine shall not be less than 1850cc, developing max. rated power out put not less than 60 HP and max. torque should not be less than 110 N-m at governed RPM, shall fully equipped with accessories for efficient full load operation of the ambulance. High ground clearence preferred Min. 160 mm.
Rear Dump type tipping truck right hand drive with 4x2 drive system, dump body capacity of Min. 7.5 cu.m. with Hydraulic tipping gear. Gross vehicle weight shall not be more than 16 Ton. Max. climbing ability should not be less than 38%. Ground clearance should not be less than 240 mm. Turning radius not more than 7.5 m. Water cool diesel engine developing Max. power output not less than 180 HP. Torque should not be less than 670 N·m at governed RPM.
